

## HemaTalk Webinar on COVID-19 – Episode 1

Dear Global Healthcare/Clinical/Laboratory Professionals:

The worldwide spread of COVID-19 is having a large impact in everyone's lives. Over the past few months China has been battling the spread of the virus through a unified campaign linking together government, medical professionals, businesses and the public. Mindray, as the leading medical device company in China, has been at the forefront of this battle. We have been increasing production capacity, working with medical professionals on improving diagnosis as well as treatment, and supplying much needed medical equipment to the hardest-hit areas such as the HuoShenShan Hospital (centered in Wuhan City).

Mindray has also gained valuable knowledge and experience related to the COVID-19 that we feel would be beneficial for you. This is why we would like to hold a series of webinars for the purpose of sharing this experience with you through the most accessible way.

For the first webinar, we are honored to have Dr. Henry Huang, the senior director of Medical and Scientific Division of Mindray IVD, and Dr. Ramon Simon-Lopez responsible for Scientific Research & Medical Affairs of Mindray IVD, as our keynote speakers to give talks on the below topics:

Time(Beijing Time)		Topic	Speaker
Mar. 18th	16:00-16:45	Hematology's indispensable role in COVID-19 diagnosis & prognosis	Dr. Henry Huang
	16:45-17:00	Session 1: Q&A	
	17:00-17:45	Cytomorphometry in Coronavirus	Dr. Ramon Simon-Lopez
	17:45-18:00	Session 2: Q&A	

We sincerely look forward to your attendance from miles away following the links below:
